RENEW YOUR
passion

The Ralph A. MacMullan Conference Center has provided a unique conference experience since 1941. Nestled among the trees, along the shores of Higgins Lake, the Center allows guests to unplug and reconnect... renewing their passion. The relaxed atmosphere and natural surroundings create an environment of change and personal development.

At the MacMullan Center, our home-style food and dynamic staff provide an excellent foundation for creativity and inspiration. Entrees include Glazed Teriyaki Salmon, Chicken Marsala and our traditional grilled New York Strip Steak.

Turn your next event into a memorable experience with:

- Eight miles of wooded trails for scavenger hunts, hiking, biking, snowshoeing and cross-country skiing
- A sandy beach for swimming, volleyball, canoeing, bonfires, and meeting activities
- Outdoor movies by the bonfire
- Fly fishing the Au Sable river, or ice fishing on Higgins Lake

“Natural and rustic with just the right amenities to be convenient and comfortable.”

–Dr. J.J. Bender, Michigan Adult Day Services Association

SPARK
creativity

Collaboration breeds fresh thinking, so the Center has been designed for group meetings from six to 135 attendees, with six lodges providing first rate traditional-style accommodations. Each lodge has a comfortable lounge where guests can gather for leisure or small, informal meetings.

Expert staff can help complement your planned programs to include guided tours of the CCC museum, nature hikes, Explorer programs, and more. The opportunities to weave environmental education into your event are endless, and we are happy to help.
